Certificate in Polymer Technologies – Level 6

If you are employed and wish to take this course, contact the Centre for Online Learning at admissions@itsligo.ie

Delivery: Online

Programme Code: SG_EPOLY_E06

About Polymer Technology

There is currently a shortage of polymer technicians in the industry and this shortage has been highlighted in both the Forfas/Expert Group on Future Skills Needs report on the Future Skills Requirements of the Manufacturing Sector to 2020 and the Action Plan for Jobs 2013.

About this Programme

This one year long part-time programme offers a level 6 Certificate in Polymer Technology (Special Purpose Award) and is jointly delivered (primarily online) by Plastics Ireland and IT Sligo.

The successful completion of this programme will allow entrants to gain the necessary technical skills to help secure employment in the plastics manufacturing, medical device industries as a technician/apprentice technician in polymer processing.

This programme is funded under the Springboard initiative. If you are unemployed, you may be entitled to free fees for this programme under this initiative. If this programme is funded you will find it and be able to submit an application on the Springboard site at www.springboardcourses.ie
